**Istanbul, Turkey** – Raynet, global software vendor with market-leading solutions and managed service provider in the field of Enterprise Software Management, today announces that its solution RayVentory has been selected by Garanti BBVA, Turkey's second-largest private bank, to manage their IT asset discovery and inventory processes.

"We are excited to have one of Turkey's leading private banks and a global financial services brand join our portfolio of financial services clients," says Ragıp Aydın, Managing Director at Raynet. "Garanti BBVA is known as an innovative and agile company, so we are honored that their team recognized the ability and flexibility of RayVentory to support them in their digitalization journey," adds Fatih Kılıçaslan, International Business Development Director at Raynet.

"After a thorough market analysis, we found that RayVentory was the best solution to automate our technology asset inventory processes," says Tuna Özken, Business Unit Manager of Cloud Data & Storage Technologies at Garanti BBVA Technology.

Garanti BBVA constantly improves its business model and processes with operational excellence priority and keeps a close eye on financial and non-financial risks. In order to accelerate and drive its value creation; bank continues to focus on reaching more customers by being wherever customers are. As of March 31, 2021, Garanti provides a wide range of financial services to its over 19 million customers with 18,615 employees through an extensive distribution network of 885 domestic branches, 7 foreign branches in Cyprus and one in Malta, and 2 international representative offices in Düsseldorf and Shanghai. Garanti offers an omni-channel convenience with seamless experience across all channels with 5,296 ATMs, an award-winning call center, internet, mobile and social banking platforms, all built on cutting-edge technological infrastructure.

"With RayVentory's automation, a wide variety of scanning methodologies, and user-friendly interface, we foresee an enormous reduction of manual work leading to faster Technology Asset Management processes, more real-time and robust data," explains Tuna Özken, Business Unit Manager of Cloud Data & Storage Technologies at Garanti BBVA Technology.
