ThinApp Packaging with RayPack

This training provides the skills to virtualize Windows applications into a ThinApp application using RayPack, modify the ThinApp configuration in response to specific circumstances, and show deployment and update processes for your environment. The course supports ThinApp version 5.x.

Course	PKG-40 ThinApp Packaging with RayPack
Duration	2 days
Language	English/German

Content of the training

Day 1	
Introduction	What is Application Virtualization
	What is ThinApp Virtualization
	What is VMware ThinApp
	Differences between virtualization solutions
Architecture and components	Differences between native tool virtualization and virtualization with RayPack
	How ThinApp works
	ThinApp components
Preparing ThinApp packaging environment	ThinApp architecture
	Clean Machine concept
Practical Exercises	Setup of RayPack including ThinApp components
	Setup of the environment
	Virtualization of a simple application

Day 2	
ThinApp packaging Process	Virtualization of packages
	Difference between RayPack and ThinApp Capture
	Modifying the Package.ini File
	Explaining the purpose of sandbox
	Deployment of ThinApp packages
	Updating and linking applications
Practical Exercises	Introduction into troubleshooting
	Practical packaging

RayAcademy – The right training for every area

The modular training concept of the RayAcademy offers a variety of qualification and advanced training courses and enables both a complete qualification process and targeted specializations in the area of Application Lifecycle Management.

The academy offers regular training courses for all products and services of Raynet and its partners within the Application Lifecycle Management. Raynet also has the world's first and unique training program in the field of software management and packaging consulting.

As a service provider for learning and training units Raynet develops current scenarios and adapts them to the in-house education management of the customers.

AZAV Certified Training Partner

As an accredited institution under the law on employment promotion, Raynet meets the requirements of the accreditation and licensing regulation for employment promotion – AZAV.

Therefore, Raynet offers measures of continuing education according to the fourth section of chapter three in book three of the Social Code.

About Raynet

Raynet GmbH is a leading and innovative service and solution provider in information technology and specialized in the architecture, implementation and operation of all tasks within Application Lifecycle Management. Raynet's Headquarters is in Paderborn, Germany and has additional locations throughout the region as well as locations in the USA, Poland and the UK.

For more than 20 years, Raynet supports hundreds of customers and partners with its products and solutions for worldwide enterprise application management projects. These include license management, software packaging, software deployment, migrations, client engineering and much more. Additionally, Raynet maintains and cultivates strong partnerships with leading companies in Application Lifecycle Management.
